February 21, 2017

Los Angeles Department of Transportation  
Attn: Ms. Seleta Reynolds, General Manager  
Los Angeles, CA 90012

Re: Los Feliz NC  
Support of Vision Zero  
Action Plan

Dear Ms. Reynolds,

The Los Feliz Neighborhood Council (LFNC) is in support of the Vision Zero Action Plan, as reported by Los Angeles Department of Transportation (LADOT) on February 1, 2017.

The extent to which transportation-related fatalities occur in Los Angeles, a premier international city, is an distressingly tragic reality. We support the efforts described in the Vision Zero Action Plan surrounding education, enforcement, engineering, evaluation and equity. No one should risk their life simply traversing the city to get to work, school, play, or home.

Additionally, we hope that LFNC is regularly updated with Vision Zero-related efforts in our neighborhood and how we can support those efforts. Our neighborhood includes a number of roads that are within the Vision Zero High Injury Network that we are especially interested in improving. Finally, we know that engaging with and educating those of us in the community is crucial to the success of Vision Zero.

The Los Feliz Neighborhood Council Governing Board approved this letter by a vote of 14 in support, 0 in opposition, and 0 abstentions.

Sincerely,

Luke H. Klipp, President  
Los Feliz Neighborhood Council

By Danny Cohen, Transportation Committee Chairperson
